An Assisted Living Community

wellness & community

Our nurse will monitor the health and wellness of each resident.

24-hour care where our experienced, capable staff lend a hand in daily living activities such as dressing, grooming, bathing and toileting. This allows for more individualized attention.

Attentiveness to building relationships and recognizing the whole person has social, mental, physical, emotional and spiritual needs to promote socialization and independence.

A dining experience where residents enjoy home cooked meals; and because we know people have different dietary needs, vegetarian, low sugar, and low salt diets are offered.

Opportunities for social interaction that promote a sense of joy, satisfaction and belonging. Drives, music, card games, reminiscence hour, creative arts and intergenerational activities are just a few examples.

Outdoor spaces that promote strengthening and exercise in our courtyards and screened in patio.
